About MITS-DU

Madhav Institute of Technology & Science (MITS), Gwalior was established in 1957 by His Highness Sir Jiwaji Rao Scindia, Maharaja of the erstwhile state of Gwalior, under the open door policy of the Govt. of India. The foundation stone of the institute was laid by the then President Dr. Rajendra Prasad on 20th October, 1956, and the building was inaugurated by President Dr. S. Radhakrishnan on 11th December, 1964. On the occasion of the Golden Jubilee Celebrations of the institute in 2008, a postal stamp on MITS was also released by the President of India, Dr. Pratibha Devi Singh Patil. The institute prepared an exhaustive NEP-2020 action plan in June 2020 and successfully implemented it, achieving all designated targets. In August 2023, NAAC accredited the institute with an A++ Grade. The institute acquired 'Deemed University' status from the Ministry of Education, Govt. of India in March 2024.

About DLG

Digital Learning Group is the official technical club of MITS, dedicated to fostering innovation and hands-on skill development. Through events like HackOrbit and HackOcean, we aim to equip students with practical experience, collaborative problem-solving, and exposure to cutting-edge technologies. The club is guided by Dr. Punit Kumar Johari, a dedicated faculty mentor who brings valuable expertise and support to the team.

About the Hackathon

HackOrbit 2K25 was just the beginning... **Now it's time to Dive Deep with HackOcean 2026!**

HackOcean is a National-Level Online Frontend Development Hackathon organized by the Digital Learning Group (DLG). Join bright and aspiring innovators from across India to tackle real-world challenges, showcase your technical and creative skills, and build impactful solutions that matter — all from the comfort of your screen.

Dive Deep. Build Bold. Ship Live.

HackOcean 2026 - At a Glance

- **Starts:** 22 July 2026
- **Team Size:** 1–4 Members
- **Registration Fee:** Solo – ₹49 | Duo – ₹89 | Trio – ₹139 | Squad – ₹179
- **Domain:** Frontend Development | Web Development
- **₹1.5 Lakhs+ Prize Pool** — Cash Prizes, Swags & Goodies
- Platform Credits, Exclusive Discounts & Exciting Rewards
- E-Certificates for All Participants.
- HackOcean runs across 2 rounds:

ROUND 1 -IGNITION

ROUND 2 -DEEP OCEAN

ROUND 1 - IGNITION

Choose any ONE of the given problem statements and prepare your solution using the Official HackOcean PPT Template. Your presentation should include the problem statement, proposed solution, key benefits, tech stack, and a high-level system architecture diagram.

What to Do

1. Choose any ONE of the given problem statements (same ones used in Round 2).
2. Download the Official HackOcean PPT Template.
3. Prepare your solution using only the provided template.
4. Mention your Team Name clearly on the first slide.
5. Submit the completed PPT before the deadline.

Your Presentation Must Include

- Problem Statement
- Proposed Solution
- Key Benefits
- Tech Stack
- High-Level System Architecture Diagram

Note:

AI tools are allowed for research and design assistance.

ROUND 2 - DEEP OCEAN

Choose any ONE of the given real-world problem statements and build a complete frontend solution that addresses the challenge. Participants will have 12 hours to design, develop, and present a functional, user-friendly, and innovative frontend application. Duration: 12 Hours.

Description of Themes

PS 01 – ABYSS | Deep Sea Exploration Co.

ABYSS is a fictional deep-sea exploration company that offers premium submarine adventures to discover the hidden wonders of the ocean. Your challenge is to design and develop a modern, responsive landing page that highlights the company's services, attracts visitors, and delivers a smooth user experience using modern frontend development practices.

PS 02 – REEF | Ocean Conservation Platform

REEF is a fictional environmental organization working to protect coral reefs and marine ecosystems. Build a clean and engaging landing page that encourages users to learn about the mission, participate as volunteers, and support ocean conservation through an intuitive frontend experience.

PS 03 – DeepSea Guardian | AI-Powered Deep Ocean Pollution & Biodiversity Monitoring

Develop an intelligent platform that continuously monitors deep-sea ecosystems using underwater drones, sonar, satellite imagery, and IoT sensors to detect illegal dumping, plastic accumulation, ghost fishing nets, coral bleaching, and endangered marine species while generating predictive environmental risk maps.

How to Participate

1. Register on Unstop before the registration deadline, solo or in a team of up to 4 (Solo/Duo/Trio/Squad).
2. Pay the applicable registration fee at registration (₹49/₹89/₹139/₹179 based on team size) — covers both rounds.
3. Round 1 (Ignition): choose one problem statement and submit your PPT using the Official Template before the deadline.
4. Top 50 shortlisted teams move to Round 2 (Deep Ocean) — build and deploy a complete frontend solution for the same problem statement in 12 hours.
5. Submit your GitHub repo + live deployed link.
6. Await the results.

Why a Fee ?

We expect an overwhelming response from across the country. A small, non-refundable registration fee helps us:

- Prevent spam/placeholder entries
- Ensure only genuinely committed teams register
- Manage event logistics smoothly

Rules and Regulations

- Team Size: 1–4 Members (Solo/Duo/Trio/Squad) — no changes allowed after registration.
- Each participant can be part of only one team throughout the event.
- Code must be written only during hackathon hours; pre-built or pre-written work submitted as original will lead to disqualification.
- AI Tools (Cursor, v0, Copilot, ChatGPT, etc.) are fully allowed at every stage — zero restrictions.
- Copying an existing website's design will result in immediate disqualification.
- Organizers, volunteers, judges, or sponsors cannot be part of any participating team.
- Team changes (adding/removing members) are not allowed after registration is complete.
- Live deployed website submission (Vercel/Netlify/GitHub Pages) is mandatory along with the GitHub repo link.
- Late submissions will not be accepted — deadlines are final, no extensions.
- The judges' decision will be final and binding; organizers reserve the right to disqualify teams for rule violations.

Round 1 Specific Rules

- Choose exactly one problem statement — this choice carries forward to Round 2.
- Download and use only the Official HackOcean PPT Template — no custom formats accepted.
- Mention your Team Name clearly on the first slide.
- Presentation must include problem statement, proposed solution, key benefits, tech stack, and a high-level system architecture diagram.
- AI tools are allowed for research and design assistance.
- Submit the completed PPT before the deadline — late entries will not be accepted.

Round 2 Specific Rules

- Build for the same problem statement chosen in Round 1 — no switching allowed.
- Solution must be a responsive, multi-page frontend application.
- SEO optimization and mobile-friendly design are mandatory on every page.
- Hardcoded/dummy data is acceptable — no backend required.
- AI-assisted development is fully permitted.
- Must be deployed on Vercel, Netlify, or GitHub Pages, with the GitHub repo and live link both submitted in the form.

Submission Requirements

Round 1:

Presentation (PPT) prepared using the Official HackOcean PPT Template, with Team Name mentioned on the first slide, submitted before the deadline via the form.

Round 2:

Complete multi-page frontend solution, mobile-responsive, SEO basics followed on every page, public GitHub repo, live deployed link submitted along with the GitHub link in the form.

Important Dates & Deadlines

- **Registration Opens:**

Now live on Unstop

- **Round 1 — Ignition (PPT Submission):**

04 July 2026, 12:00 PM IST – 22 July 2026, 06:00 PM IST

- **Registration Deadline:**

22 July 2026, 06:01 PM IST

- **Round 2 — Deep Ocean (Grand Finale):**

24 July 2026, 12:00 PM IST – 24 July 2026, 11:59 PM IST (12 Hours)

Rewards and Prizes

HackOcean 2026 features a combined prize pool worth over ₹1.5 Lakhs, including cash prizes and confirmed sponsor contributions. Winners receive cash rewards along with CodeCrafters VIP Memberships, Interview Buddy AI Interview Credits, and a Digital Certificate. The Top 5 Teams also receive a free 1-Year .XYZ Domain. Every participant will receive a digital participation certificate, along with sponsor rewards, platform credits, and access to premium learning resources.
